MEMORANDUM FOR:

2 February 1959

SUBJECT : Two Contracts Submitted for Signature

A few days ago the Director signed off on a Program Approval for the first stage of GUSTO. This totals The two contracts attached hereto are elements of that program. Under a new procedure now being considered, the Director's signature would not be required for these contracts, since he has specifically approved contracts for the purpose in question, with the companies concerned. Approval of these two contracts is still required under the old procedure. This note of mine will serve to remind the Director that these are within the program he has already approved. It should be noted that these initial contracts will obligate less than half of the funds eventually required by the two companies in question and are for the purpose of getting the work started.
